Legal description (¼ ¼ , Gov't Lot, CSM)			
Subdivision and lot #:			
Site address and directions to property:			

A copy of the Treated Impervious Surface Plan shall be signed by the property owner, approved and filed with the Planning and Zoning Department and an affidavit must be recorded with the Register of Deeds office prior to issuance of the zoning permit.

Treated Impervious Surfaces (NR 115.05(1)(e)3m and s. 59.692(1k)(am)1, Wis. Stats.). Impervious surfaces that can be documented to show they meet either of the following standards shall be excluded from the impervious surface calculations under section 9.94(F)(2).

- The impervious surface is treated by devices such as storm water ponds, constructed wetlands, infiltration basins, rain gardens, bio-swales or other engineered systems.
- The runoff from the impervious surface discharges to an internally drained pervious area that retains the runoff on or off the parcel and allows infiltration into the soil.

To qualify for the statutory exemption, property owners shall submit a complete permit application that is reviewed and approved by the county. The application shall include the following:

1. Calculations showing how much runoff is coming from the impervious surface area.
2. Documentation that the runoff from the impervious surface is being treated by a proposed treatment system, treatment device or internally drained area.
3. An implementation schedule and enforceable obligation on the property owner to establish and maintain the treatment system, treatment devices or internally drained area. The enforceable obligations shall be evidenced by an instrument recorded in the office of the Register of Deeds prior to the issuance of the permit.

Note: The provisions in section 9.94(F)(5) are an exemption from the impervious surface standards and as such should be read construed narrowly. As such, a property owner is entitled to this exemption only when the runoff from the impervious surface is being treated by a sufficient (appropriately sized) treatment system, treatment
